

MASTER APG

 **MASTER**
POWER TRANSMISSION

Born to RUN

The modern, power dense and rugged APG.

Known for its durability and serviceability, Master APG is a true workhorse in our product line up. Born to run, this long lasting parallel helical gear reducer is highly efficient with a design that allows for easy service and repair as needed. Produced in our Columbus, IN facility, most APG ratings can be shipped within 48 hours.

- Optimized bearing spans and helix angles for long bearing life and quiet operation
- Case carburized AGMA gearing provides longevity, durability and shock load resistance protection
- Low maintenance, serviceable design with pry slots on end covers for easy access to seals and internal components
- Premium coatings and food grade lubricants available for washdown, food handling and packaging applications
- Innovative input adapter system makes motor replacement fast and easy
- Modular design with integral gearmotor, C-face and shaft input options
- 8 sizes available - 1/3 to 75 HP in single, double and triple reduction in ratios ranging from 1.2:1 through 129.4:1
- Born to run and built in our Columbus, IN facility
- Most ratings available in 48 hours

APG
Designed for
your needs.

RELIABLE PERFORMANCE,
WORLD CLASS EFFICIENCY

Modular design provides flexibility for use in thousands of different applications and mounting dimensions.

Innovative adapter system allowing a basic gearcase to be used for gearmotor and C-face applications. Adapter system consists of a bearing, shaft, pinion and a clamp collar to reduce fretting corrosion on the shaft.

FASTER @MASTER

Working as a team, with the clear goal of dramatically raising the bar on customer service, we've brought fresh thinking to Power Transmission. The results speak for themselves: Industry best delivery with over 80% of our orders shipping in 48 hours or less, immediate accessibility of parts and remarkable quality.

And we're just getting started.

AVERAGE DAYS FROM ORDER TO SHIPMENT

THEN.....vs.....NOW

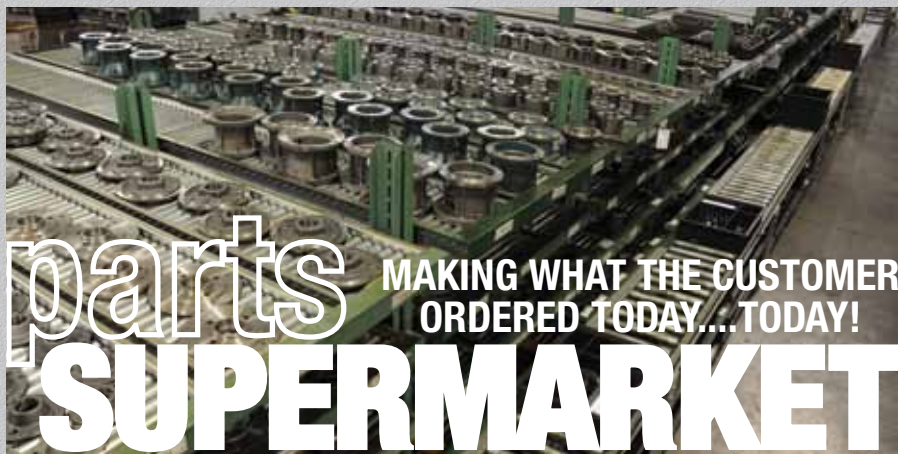

Doing Ordinary Things in an Extraordinary Way.

Made in the U.S.A.

Master Power Transmission believes in US-based manufacturing. Manufacturing jobs are the fuel that keeps our economic engine running. US-based manufacturers have continued to become more efficient, more competitive, offer safer work environments and higher quality throughout the last decade.

Master Power Transmission is a growing, globally competitive, US manufacturer committed to the trend to revitalize the "Made in the U.S.A." label. We believe in the power and success of the American Spirit. We invite you to learn more about the new dawn of American Manufacturing and our rebirth as a nation of innovation.

"The winners in the industry are the ones driven to modernize. They offer safer work environments, higher quality products and increased productivity through lean manufacturing processes. When you manufacture locally to your customers, you also do a better job on customer service: greater flexibility to customize and faster response to their needs."

– Michael Cinquemani
