

MASTER **ComboGear**

Built to LAST

Long life and improved efficiency

A double reduction unit incorporating an input worm set and helical output set, the Master ComboGear offers long life and improved efficiency over competitive worm gear products. Completely sealed from the environment and factory filled with long life synthetic lubricant, this compactly designed right angle gear reducer has an extended maintenance cycle and is easy to service when repairs are needed. Produced in our Columbus, IN facility, most ComboGear ratings can be shipped within 48 hours.

- Low profile, compact worm-helical right angle gear reducer
- Significant efficiency advantage versus competitive worm gear products
- Factory filled with long life synthetic lubricant (food grade lubricants available)
- Superior housing mass for rigidity and use in vibratory applications
- Tapered bushing system for heavy shock and reversing load applications
- Extended maintenance period, completely sealed from the environment
- Serviceable design
- Compact three-piece coupled motor design uses standard C-face motors
- Shaft output along with straight bore and bushed hollow output options
- Wide variety of mounting options available
- USDA approved finish
- Built in our Columbus, IN facility with most ratings available in 48 hours

COMPARING GEAR EFFICIENCY

**FASTER
@ MASTER**

Working as a team, with the clear goal of dramatically raising the bar on customer service, we've brought fresh thinking to Power Transmission. The results speak for themselves: Industry best delivery with most of our orders shipping in 48 hours or less, immediate accessibility of parts and remarkable quality.

And we're just getting started.

AVERAGE DAYS FROM ORDER TO SHIPMENT

THEN.....vs.....NOW

Doing Ordinary Things in an Extraordinary Way.

Made in the U.S.A.

Master Power Transmission believes in US-based manufacturing. Manufacturing jobs are the fuel that keeps our economic engine running. US-based manufacturers have continued to become more efficient, more competitive, offer safer work environments and higher quality throughout the last decade.

Master Power Transmission is a growing, globally competitive, US manufacturer committed to the trend to revitalize the "Made in the U.S.A." label. We believe in the power and success of the American Spirit. We invite you to learn more about the new dawn of American Manufacturing and our rebirth as a nation of innovation.

"The winners in the industry are the ones driven to modernize. They offer safer work environments, higher quality products and increased productivity through lean manufacturing processes. When you manufacture locally to your customers, you also do a better job on customer service: greater flexibility to customize and faster response to their needs."
