FORTIS MXD
MASTER EXTREME DUTY

INTRODUCING FORTIS MXD FROM MASTER POWER TRANSMISSION.

Master Power Transmission has answered the challenge to deliver the highest quality shaft mount reducer in the market with the Fortis MXD series gearbox. Fortis, latin for Strong/Robust, is exactly that. Fortis MXD adds a shaft mount gearbox line to MPT's growing line of rugged, power dense gearboxes. Fortis MXD features improved input seal design, ductile iron housing, premium bearings and a premium backstop. A full offering of accessories, including motor mounts, belt guards, CEMA adapter kits, taper bushing kits and parts completes the offering giving the users exactly what they are asking for.

Fortis. Improved in INDIANA.

- Case carburized and precision finished helical gearing provides maximum load carrying capability.
- Manufactured in Columbus, Indiana
- Fractional to 150HP
- MXD sizes 1-10, MXDSC sizes 1-7
- Sizes 1-7 available in 9:1, 15:1, & 25:1 ratios
Size 8 available in 15:1 & 25:1 ratios
Size 9 available in 15:1 & 26:1 ratios
Size 10 available in 15:1 & 24:1 ratios

IMPROVED.

DUCTILE IRON HOUSING
for better thermal conductivity and impact strength.

PREMIUM BEARINGS
provide increased life.

EASILY REPAIRED
with parts available from Master PT.

FORTIS MXDSC Screw Conveyor Design

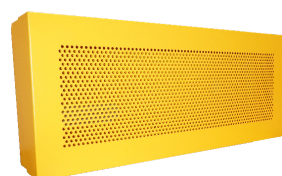

Fortis MXDSC line offers CEMA standard screw conveyor adapter kits for existing MXD units, sizes 1-7. Converting MXD to MXDSC is simple making your inventory more versatile.

CAPABILITIES

- CEMA standard adapters and shafts
- MXDSC available in sizes 1-7
- Converts from standard Fortis MXD units

through a broad distributor network

WE COMMIT TO DO THE EXTRAORDINARY BECAUSE THE WORLD NEEDS HEROES

MADE IN THE U.S.A.

Master Power Transmission believes in US-based manufacturing. Manufacturing jobs are the fuel that keeps our economic engine running. US-based manufacturers have continued to become more efficient, more competitive, offer safer work environments and higher quality throughout the last decade. We invite you to learn more about the new dawn of American Manufacturing and our rebirth as

"The winners in our industry are the ones driven to modernize. They offer safer work environments, higher quality products and increased productivity through lean manufacturing processes. When you manufacture locally to your customers, you also do a better job on customer service with greater flexibility to customize and faster response to their needs."
