FORTIS MXD
MASTER EXTREME DUTY

USERS ARE ASKING FOR FORTIS MXD FROM MASTER POWER TRANSMISSION.

Master Power Transmission has answered the challenge to deliver the highest quality shaft mount reducer in the market with the Fortis MXD series gearbox. Fortis, Latin for strong/robust, is exactly that. Fortis MXD adds a shaft mount gearbox line to MPT's growing line of rugged, power dense gearboxes. Fortis MXD gearboxes feature Tier 1 bearings, Tier 1 backstops, and ductile iron housings, which were all carefully chosen to match the same quality as the manufactured components. A full offering of accessories, including motor mounts, belt guards, CEMA adaptor kits, taper bushing kits, and parts complete the offering, giving users exactly what they are asking for.

- Case carburized, precision finished helical gearing provide maximum load carrying capability.
- Manufactured in Columbus, Indiana
- Fractional to 150HP
- Sizes 1-6 available in 9:1, 15:1, & 25:1 ratios
Size 7-8 available in 15:1 & 25:1 ratios
Size 9 available in 15:1 & 26:1 ratios
Size 10 available in 15:1 & 24:1 ratios

IMPROVED.

DUCTILE IRON HOUSING for better thermal conductivity and impact strength.

PREMIUM BEARINGS provide increased life.

EASILY REPAIRED with parts available from Master PT.

FORTIS MXDSC Screw Conveyor Design

Fortis MXDSC line offers CEMA standard screw conveyor adapter kits for existing MXD units, sizes 1-7. Converting MXD to MXDSC is simple, making your inventory more versatile.

CAPABILITIES

- CEMA standard adapters and shafts
- MXDSC available in sizes 1-7
- Converts from standard MXD units

DOING ORDINARY THINGS IN AN EXTRAORDINARY WAY.

MADE IN THE U.S.A.

Master Power Transmission believes in US-based manufacturing. Manufacturing jobs are the fuel that keeps our economic engine running. US-based manufacturers have continued to become more efficient, more competitive, offer safer work environments, and higher quality throughout the last decade. We invite you to learn more about the new dawn of American Manufacturing and our rebirth as a nation of innovation.

"The winners in our industry are the ones driven to modernize. They offer safer work environments, higher quality products, and increased productivity through lean manufacturing processes. When you manufacture locally to your customers, you also do a better job on customer service with greater flexibility to customize and faster response to their needs."

- Michael Cinquemani
CEO, Master Power Transmission
